AMIR DJEBBI

Computer Engineering Student | Full-Stack Development & DevOps

Manouba, Tunisia · amirdjebbi02@gmail.com · +216 27 073 247 · linkedin.com/in/djebbi-amir-523314188 · github.com/roxemir200

PROFESSIONAL SUMMARY

Final-year computer engineering student (5th year, ESPRIT) specializing in Full-Stack development and DevOps practices. Passionate about algorithmic problem solving in C++ (HackerRank, Codeforces, two-time TCPC competitor), with hands-on experience from Full-Stack/DevOps internships and AI-driven projects. Seeking a final-year engineering internship (PFE) to contribute to ambitious software projects.

PROFESSIONAL EXPERIENCE & COMPETITIONS

Full-Stack & DevOps Intern — CCA Tunisie *Tunis, Tunisia · Jul. – Aug. 2026 · GitHub*

- Developed BMP.tn, a B2B web platform for the construction industry (MERN stack) connecting experts, craftsmen and manufacturers around project and quote management.
- Set up CI/CD pipelines, Docker containerization and deployment to a Kubernetes cluster, with continuous code quality analysis (SonarQube) and a monitoring/alerting system for proactive incident detection.

Software Testing & QA Intern (.NET) — Axe Finance *Lac 1, Tunisia · Jul. – Aug. 2025*

- Designed C# unit tests (xUnit), improving code coverage and reliability, within an Agile team practicing DevOps and continuous delivery.

IT Networking & Maintenance Intern — Bona *Mégrine, Tunisia · Jul. 2023*

- Configured hardware, provided user support and contributed to local network administration.

Competitor — TCPC (Tunisian Collegiate Programming Contest) *Tunisia · 2024 & 2025 Editions*

- Competed in two consecutive editions of TCPC, Tunisia's leading collegiate competitive programming contest (ICPC format, team-based), representing ESPRIT.
- Solved advanced algorithmic problems in C++ under strict time constraints (graphs, dynamic programming, data structures), strengthening rigor, teamwork and performance under pressure.

PROJECTS

RentCar — Full-Stack Car Rental Platform with AI & DevOps *GitHub*

- Built a complete platform (Spring Boot, React/TypeScript): Stripe payments, real-time chat, notifications, multilingual FR/EN/AR interface, admin dashboard and a Machine Learning recommendation engine (Python, LightGBM).
- Implemented 4 CI/CD pipelines (GitHub Actions, 1,400+ automated tests), Docker containerization, hosting (Render, Vercel) and Grafana Cloud monitoring with alerting.

Responsive Showcase Website — front-end demo (HTML/CSS/JavaScript) · GitHub

Academic Projects *2022 – 2025*

- Desktop application for medical practice management (C++/Qt, MySQL): patient tracking, session scheduling and automated PDF report generation.
- Cross-platform gym management solution (Java/JavaFX, Symfony, MySQL): desktop app and website synchronized on a shared database — GitHub
- Fitness Gym Web (HTML/CSS/JavaScript, PHP, MVC architecture): gym management platform — GitHub
- 2D game in C with SDL 1.2: game logic and low-level graphics rendering — GitHub
- E-learning platform built on a microservices architecture, with secure authentication and access management via Keycloak — GitHub

EDUCATION

Engineering Degree in Computer Science (5-year program, 5th year) *Sep. 2022 – Sep. 2027*
ESPRIT — Private Higher School of Engineering and Technology, Tunis

Baccalaureate — Mathematics *2022*
Hamouda Becha High School, Manouba, Tunisia

SKILLS

Languages: JavaScript, TypeScript, Java, Python, C/C++, C#, PHP, SQL, HTML/CSS
Frameworks: React.js, Node.js, Express.js, Spring Boot, Symfony, .NET, JavaFX, Qt
Databases: MongoDB, MySQL
DevOps & Tools: Docker, Kubernetes, CI/CD (GitHub Actions), SonarQube, Grafana, Keycloak, Git, xUnit
Concepts: Machine Learning, microservices, Agile, object-oriented programming, algorithms

CERTIFICATIONS · LANGUAGES · ACTIVITIES

Certification: HackerRank Problem Solving — algorithmic problem solving
Languages: Arabic (native) · French (advanced) · English (intermediate)
Activities: IEEE Student Branch (hackathons) · ACM Club (competitive programming) · Esprit Chess Club
